# Reduce costs, increase productivity, and drive customer satisfaction in your inplant CRD print center

EFI™ PrintSmith™ Vision is a browser-based, scalable and customisable print management solution designed to streamline operations, reduce costs and provide the visibility you need to be successful.

## One stop shop management

CRD plants are challenged with meeting production requirements with limited teams and resources. PrintSmith Vision provides comprehensive tools for every aspect of the plant.

- Eliminate manual tasks and steps to improve efficiency
- Easily schedule jobs to optimize your press utilization
- Manage and track key production data with built in reporting

With PrintSmith Vision your team can get up and running quickly, with minimal training. It's flexible modular design means operators can be trained for specific tasks.

## Intuitive HTML5 User Experience

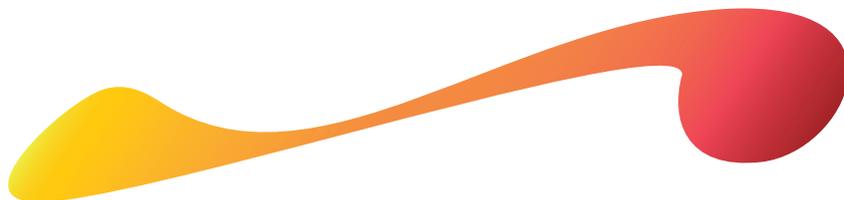

PrintSmith Vision's new FastTrack tools streamline key daily tasks, simplifying data entry, updates and job management. Built entirely in HTML5, FastTrack is performance optimized for your operation.

- High performance, flexible web based user experience
- Task based workflows, enable you to train staff for specific functions, get up and running fast
- See only the information that's relevant to the job you're working on

“The application had to be ‘user friendly’ and meet my needs without too much adjustment. Nothing came close to doing what PrintSmith does...”

## Order Management

Centralize order management and quickly process and schedule jobs whether they come in the front door or via your web to print solution. Order to production automation reduces errors and improves capacity without increasing overhead.

## Mobile view

With the flexibility to access your production data on your mobile device your team can maintain operational visibility while on the road or at home. Options that ensure you can service your customers no matter where you are.

## Back-billing and Charge backs

Back-billing, or charge backs enable you to quickly reconcile invoices or costs against interdepartmental cost centers or purchase orders - critical for the function of your inplant print center.

By using a Journal Entry, you can easily clear invoices from prior billing periods. You can easily apply Journal Entries to single or multiple invoices to ensure correct accounting.
